

State Adoption, Alphabetical, as of April 15th , 2025

Attention: The information in this table is primarily from the United States Department of Energy website (www.energycodes.gov) along with other relevant sources and is provided for informational purposes ONLY. While this table is periodically updated from these sources, Lamtec does not represent or warrant that the information contained therein is current or may be relied upon for any purpose. Current energy codes requirements should always be verified with the appropriate governmental authority having jurisdiction before proceeding.

¹ = State has a specific energy code based on an existing code or standard, *COMcheck* can be used for compliance

² = State has adopted a unique energy code based on their own interpretation of existing codes or standard with unique compliance programs

³ = *COMcheck* may be used in jurisdictions within the state that allow it

⁴ = Voluntary and unenforceable
